Stock Build or Custom Build

Enter Comments below or on a separate attached document: Please provide a narrative account of the circumstances relative to your withdrawal, including the date, approximate hour, weather conditions, number of persons aboard and the reason for withdrawal. If structural or mechanical failure were the cause, please describe in detail. Your evaluation of the seagoing capability of your crew will be helpful. Include any radio contacts (EPIRB and e-mail too) made and their responses. Describe injuries, if any. Was any gear deployed and not picked up, if so, what? Any additional information you care to add will be appreciated, such as attempts to repair, assistance rendered by other vessels, etc.

Note: In an effort to better understand products that contribute to failure of passage, please include specific mention of product performance deficiencies related to this incident.
